2. SCOPE OF WORK

2.1 General Requirements:

- 2.1.1 The contractor shall provide bridge deck epoxy polymer concrete overlay services for the Missouri Highway and Transportation Commission (MHTC) and Missouri Department of Transportation (MoDOT), in accordance with the provisions and requirements stated herein.
- 2.1.2 The contractor shall provide all deliverables/services to the sole satisfaction of MoDOT.
- 2.1.3 Unless otherwise specified herein, the contractor shall furnish all material, labor, facilities, equipment, and supplies necessary to provide the deliverables/services required herein.

2.2 Specific Requirements:

- 2.2.1 The contractor shall provide MoDOT with services in accordance with the following specification.
- 2.2.2 **Required Specifications** - All materials, equipment, and/or services bid upon must comply with the attached Missouri Standard Specification 623.30 “Epoxy Polymer Concrete Overlay” Specification # except as noted below and any other provisions outlined in the solicitation documents.
- 2.2.3 **Location:** The scope of this project includes the preparation, furnishing and installation of approved Epoxy Polymer Concrete Overlays on the bridge decks of two bridges in St. Louis County: Bridge A5043 is on Babler Park Drive (Rte BA) over Bonhomme Creek in Wildwood, Mo near Babler State Park and Bridge A4297 is Woodford Way over IS 270 in St. Louis County within Bridgeton city limits.
- 2.2.4 **Dimensions:** A5043 has dimensions of approximately 112 ft x 39 ft (curb to curb) and A4297 is roughly 272 ft x 44 ft (curb to curb), but also has 2 cantilevered sidewalks that are each roughly 5 ft 6 in wide. Both sidewalks shall be included in the overlay process for Woodford Way.
 - a. It shall be the contractor’s responsibility to verify the conditions of the deck surfaces prior to bidding. Several pictures and plan sheets have been included in these bid documents for informational purposes only. Both bridges have had individual cracks treated previously with an asphalt based product.
- 2.2.5 **Standards:** All pertinent standards and specifications, including those mentioned in this document, are accessible on the Missouri Department of Transportation website (www.modot.mo.gov) under “Business With MODOT” and “Standards and Specifications”. The effective version will be determined by the letting date of the project.
 - a. These supplemental bidding documents contain all current revisions to the bound printed versions and have important legal consequences. It shall be conclusively presumed that they are in the bidder’s possession, and they have been reviewed and used by the bidder in the preparation of any bid submitted for this project.
- 2.2.6 **Traffic Control and Work Hours:**
 - a. All traffic control is the responsibility of the contractor and shall conform to the more stringent of Missouri Standard Specifications for Highway Construction or MUTCD standards. Particular attention shall be paid to section 616 of the Missouri Standard Specifications. It is important that all work progress in a systematic manner so as to minimize the traffic impedance. The contractor must maintain one lane of flowing traffic at each site through the duration of the work. With both routes consisting of only two lanes of traffic, flagmen and appropriate signing must be provided in accordance with standards mentioned above. A Traffic Control plan shall be submitted to the Engineer for approval at least 1 week prior to initiation of work. Traffic Control shall be paid per Lump Sum for each site.

- b. Work hours for this project shall be limited to daylight hours at both sites, except that at A5043, work shall be completed on the weekend during daylight hours and no weekday work will be permitted. Work schedule shall be coordinated with and approved by the Engineer prior to work. Contractor may have work hour restrictions around the holidays, special events, park activities or special restrictions due to other nearby work. Contractor shall notify the Engineer a minimum of two weeks prior to beginning any work, in order to allow for sufficient work notification to nearby parks, schools and other entities.

2.2.7 CONSTRUCTION REQUIREMENTS: Epoxy Polymer Concrete Overlay

- a. The contractor shall be responsible for providing all materials, equipment and labor necessary to successfully place Epoxy Polymer Concrete Overlays (EPOs) as specified or unless as noted. The Epoxy Polymer system shall be one that appears on MoDOT's list of approved products. A representative of the manufacturer of the chosen overlay system shall be present to verify that all operations are performed according to acceptable practices, as well as witness the entire testing phase of all field tests. All materials, elements and procedures involved with placing the EPOs shall conform to Missouri Standard Specification 623.30 "Epoxy Polymer Concrete Overlay", except as noted below:

Delete paragraphs 623.30.3.3, 623.30.3.3.1 and 623.30.3.7.3 in Sec 623 and substitute the following:

- b. **623.30.3.3 Field Test.** Prior to the start of the overlay operation, a test area of the complete overlay system shall be placed on the bridge deck in a contractor proposed location that is approved by the engineer. When multiple bridges are included in a project, a test area will be required on each bridge. The contractor may utilize one-half of the bridge deck or an area equal to one day's placement operation, whichever is smaller, as a field test. The degree of cleaning used on the test area shall be the minimum used on the remainder of the structure. The surface for the test overlay shall be prepared in accordance with the test method prescribed in ACI 503R - Appendix A of the ACI Manual of Concrete Practice to establish an approved cleaning practice. The approved cleaning practice shall remove all detrimental material that may interfere with the bonding or curing of the overlay. Concrete shall be sound, with mortar soundly bonded to the coarse aggregate, with clean and open pores to be considered adequate for bond. All areas of asphalt and pavement markings shall be removed. Preparation of the surface shall produce a surface relief equal to International Concrete Repair Institute (ICRI) surface preparation level 6 or 7 or ASTM E 965 pavement macrotexture depth of 0.04 to 0.08 inch.
- c. **623.30.3.3.1** Visible moisture on the prepared deck at the time of placing the overlay will not be permitted. Moisture in the deck shall be checked by taping a plastic sheet to the deck for a minimum of 2 hours in accordance with ASTM D 4263.
- d. **623.30.3.7.3** The temperature of the bridge deck surface at the time of application shall be less than 90° F and in accordance with the manufacturer's recommendation.
- e. Polymer and aggregate shall also be applied on the traffic face of all safety barrier curbs for a distance of 16" vertically up the face from deck surface, and for the full length of the bridges. In addition, at A4297, polymer and aggregate shall be applied for a distance of 6" minimum vertically up the non-traffic faces (sidewalk face) of the safety barrier curbs from the deck surface, and for the full length of the bridge. Plan quantity includes surface area to meet this requirement.
- f. Payment shall be made by the SY for Epoxy Polymer Concrete Overlay. For bridge A4297, deck and sidewalk quantities shall be separately paid. Plan Quantity shall be paid unless an appreciable error exists and is confirmed by the Engineer

2.2.8 DUST/RESIDUE/SLURRY CONTROL:

- a. The contractor shall be prepared to control the residue, slurry and all by-products generated by any process in the performance of this work, including any blasting and placement of the epoxy and aggregate on the decks. Any deck drains present on these structures shall be completely covered or blocked so no foreign matter or material escapes the deck surface during any of the construction processes. The contractor shall reclaim and properly dispose of any blast residue, slurry components and waste generated by their work efforts at their own expense. The contractor shall take precautions to avoid damage as a result of any flying debris generated by his chosen methods, and shall protect nearby waterways and roadways from any waste products produced in the execution of his work items. The contractor shall be responsible for any claims that result from damage caused by his negligence. No direct payment will be made for adherence to these requirements.

2.2.9 PAVEMENT MARKINGS:

- a. Contractor shall be prepared to replace traffic markings obliterated by the stated work with temporary provisions. Temporary markings shall be placed in accordance with section 620. No direct payment will be made for this requirement.

2.2.10 MOBILIZATION:

- a. There is a lump sum pay item for mobilization for each structure site.

2.2.11 JOB SCHEDULING AND COMPLETION:

- a. The intent of this job is to as quickly as possible prepare the surface and install the EPOs. The contractor must diligently work to complete the work as efficiently as possible to minimize traffic disruptions, while allowing one lane to be open to traffic at all times. The completion date for both bridges is **May 15, 2011**.

2.2.12 MISCELLANEOUS:

- a. Notarized weekly payroll documentation for prime and subcontractors will be required from start to finish of this contract showing compliance with prevailing wage rates. Lien Waivers from materials suppliers shall also be provided. Additional documents shall be furnished as required by other provisions in the bid package.
- b. Payment shall be made per contractor invoice upon satisfactory completion of all work items and the receipt of required documentation. Each structure may be invoiced separately and paid, upon completion of all work items related to that structure and adherence to the previous guidelines.

2.3 Liquidated Damage Requirements:

- 2.3.1 The contractor shall agree and understand that providing the Epoxy Polymer Concrete Overlay in accordance with the requirements stated herein is considered critical to the efficient operations of MoDOT. However, since the amount of actual damages would be difficult to establish in the event the contractor fails to comply with the contractual requirements, the contractor shall agree and understand that the amount identified below as liquidated damages shall be reasonable and fair under the circumstances.

- a. In the event the contractor fails to provide the Epoxy Polymer Concrete Overlay in accordance with the contractual requirements specified herein, the contractor shall be assessed liquidated damages in the amount of \$1500.00 per day for each calendar day the contractor is delinquent in completing the work beyond the designated completion date.
- b. The contractor shall further agree and understand that such liquidated damages shall either be deducted from the total amount due the contractor or paid by the contractor as a direct payment to MoDOT, at the sole discretion of MoDOT.
- c. The contractor shall agree and understand that the liquidated damages described herein shall not be construed as a penalty.
- d. The contractor shall agree and understand that all assessments of liquidated damages shall be within the discretion of the MoDOT and shall be in addition to, not in lieu of, the rights of the MoDOT to pursue other appropriate remedies.

2.4 Invoicing and Payment Requirements:

2.4.1 The contractor shall submit an itemized invoice to the following address after the completion of deliverables, as specified herein.

Missouri Department of Transportation
Business & Benefits
1590 Woodlake
Chesterfield, MO. 63017-5712

- 2.4.2 Each invoice should be itemized in accordance with items listed on the purchase order and/or contract. The statewide financial management system has been designed to capture certain receipt and payment information. Therefore, each invoice submitted must reference the purchase order number and must be itemized in accordance with items listed on the purchase order. Failure to comply with this requirement may delay processing of invoices for payment.
- 2.4.3 The contractor shall be paid in accordance with the firm, fixed prices stated on the pricing page(s) of this document after completion of deliverables specified herein and acceptance by MoDOT.
- 2.4.4 Other than the payment specified above, no other payments or reimbursements shall be made to the contractor for any reason whatsoever.
- 2.4.5 MoDOT is exempt from paying Missouri Sales Tax, Missouri Use Tax and Federal Excise Tax. However, the contractor may themselves be responsible for the payment of taxes on materials they purchase to fulfill the contract. A Federal Excise Tax Exemption Certificate will be furnished to the successful bidder upon request.
- 2.4.6 Unless otherwise provided for in the solicitation documents, payment for all equipment, supplies, and/or services required herein shall be made in arrears. The Missouri Highways and Transportation Commission (MHTC) shall not make any advance deposits.
- 2.4.7 The MHTC assumes no obligation for equipment, supplies, and/or services shipped or provided in excess of the quantity ordered. Any authorized quantity is subject to the MHTC's rejection and shall be returned at the contractor's expense.

2.5 Other Contractual Requirements:

2.5.1 RSMo 285.530 - The contractor understands and agrees that by entering into a contractual agreement with MoDOT, they certify the following:

- a. The contractor shall only utilize personnel authorized to work in the United States in accordance with applicable federal and state laws. This includes, but is not limited to, the Illegal Immigration Reform and Immigrant Responsibility Act (IIRIRA) and INA Section 274A.
- b. If the contractor is found to be in violation of this requirement or the applicable state, federal and local laws and regulations, and if the State of Missouri has reasonable cause to believe that the contractor has knowingly employed individuals who are not eligible to work in the United States, the state shall have the right to cancel the contract immediately without penalty or recourse and suspend or debar the contractor from doing business with the state.
- c. The contractor agrees to fully cooperate with any audit or investigation from federal, state or local law enforcement agencies.
- d. In addition, the contractor shall maintain enrollment and participation in a federal work authorization program with respect to the employees working in connection with the contracted services included herein.

2.5.2 Prevailing Wage:

Restrictive states are as follows: Alaska, Arizona, California, Colorado, Connecticut, Delaware, District of Columbia, Florida, Idaho, Illinois, Iowa, Maine, Massachusetts, Mississippi, Montana, Nevada, New Jersey, North Dakota, Oklahoma, South Dakota, and the U.S. Virgin Islands, West Virginia and Wyoming.

The Contractor and its subcontractor(s) shall require all such employees to complete this ten-hour program, pursuant to 292.675 RSMo, unless they hold documentation on their prior completion of said program. Penalties for non-compliance include Contractor forfeiture to the Commission in the amount of \$2,500, plus \$100 per contractor and subcontractor employee for each calendar day such employee is employed beyond the elapsed time period for required program completion under 292.675 RSMo.

A copy of a letter from the Department of Veterans Affairs (VA), or a copy of the bidder's discharge paper (DD Form 214, Certificate of Release or Discharge from Active Duty) from the branch of service the bidder was in, stating that the bidder has a service-connected disability rating ranging from 0 to 100% disability; and
- b. A completed copy of this exhibit

(NOTE: For ease of evaluation, please attach copy of the above-referenced letter from the VA or a copy of the bidder's discharge paper to this Exhibit.)

- d. Time of delivery is a part of the consideration and, if not otherwise stated in the solicitation documents, must be stated in definite terms by the Bidder/Offeror and must be adhered to. If time varies on different items, the Bidder/Offeror shall so state.
- e. If providing bids/quotes/proposals for commodities, the Bidder/Offeror will state brand or make on each item. If bidding or proposing other than the make, model or brand specified, the manufacturer's name, model number or catalog number must be given.

GENERAL TERMS AND CONDITIONS

General Performance

- a. This work is to be performed under the general supervision and direction of the Missouri Department of Transportation (MoDOT) and, if awarded any portion of the work, the Contractor agrees to furnish at his own expense all labor and equipment required to complete the work, it being expressly understood that this solicitation is for completed work based upon the price(s) specified and is not a solicitation for rental of equipment or employment of labor by MoDOT, and MoDOT is to have no direction or control over the employees used by the Contractor in performance of the work.

Deliveries

- a. Unless otherwise specified on the solicitation documents or purchase order, suppliers shall give at least 24 hours advance notice of each delivery. - c. Any demurrage is to be paid by the Contractor direct to the railroad or carrier.

Nondiscrimination

- a. The Contractor shall comply with the Regulations relative to nondiscrimination in federally-assisted programs of the Department of Transportation, Title 49, Code of Federal Regulations, Part 21, as they may be amended from time to time, (hereinafter referred to as the Regulations), which are herein incorporated by reference and made a part of this contract.
- b. All solicitations either by competitive bidding or negotiation made by the Contractor for work to be performed under a subcontract, including procurements of materials or leases of the Contractor's obligations under this contract and the Regulations, will be relative to nondiscrimination on the grounds of race, color, or national origin.

- d. The contract expresses the complete agreement of the parties and performance shall be governed solely by the specifications and requirements contained therein. - c. All payments for work performed by a subcontractor shall be made to the Contractor to whom the contract was awarded and the purchase order issued.

Invoicing and Payment

- b. The Contractor agrees and understands that the contract shall constitute an assignment by the Contractor to the MHTC of all rights, title and interest in and to all causes of action that the Contractor may have under the antitrust laws of the United States or State of Missouri for which causes of action have accrued or will accrue as the result of or in relation to the particular equipment, supplies, and/or services purchased or produced by the Contractor in the fulfillment of the contract with the MHTC.

- a. Upon filing for any bankruptcy or insolvency proceeding by or against the Contractor, whether voluntary or involuntary, or upon the appointment of a receiver, trustee, or assigned the benefit or creditors, the Contractor must notify MoDOT immediately.
